

# U.S. 71 Transit Study Transit-Oriented Development Workshop and Open House

Join us to provide feedback on the U.S. 71 Transit Study. The study's Project Partnership Team will be meeting on October 3 with staff members from communities along the corridor to identify opportunities and needs related to transit-oriented development at potential station areas.

## Thursday, October 4

1:00 p.m.

Green Impact Zone Office  
4600 Paseo Blvd  
Kansas City, MO 64110

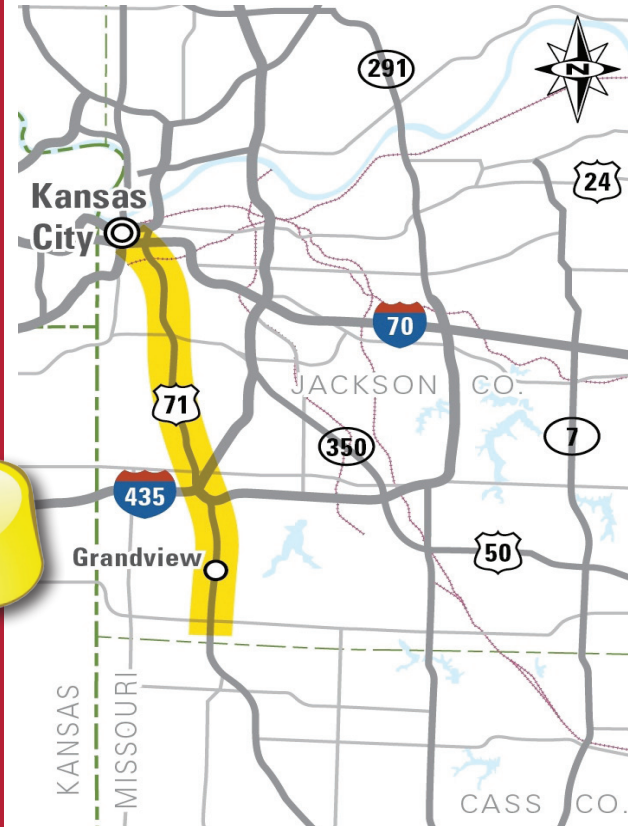

KCATA Routes  
#47 and #54

*The U.S. 71 Transit Study will identify enhanced transit options for residents and commuters in the U.S. 71 corridor. The study--an alternatives analysis--will complement the work being conducted with the Jackson County Commuter Corridors Alternatives Analysis (JCCCAA) as well as the downtown KCMO circulator project, all part of a comprehensive effort to implement a region-wide transit system.*
